WHY KERALA

Kerala isn't just a destination we sell — *it's our home and our specialty*. Deep local roots and on-the-ground presence let us take you beyond the usual itinerary: the backwaters of Alleppey and Kumarakom, the tea hills of Munnar, the beaches of Kovalam and Varkala, the wildlife of Thekkady, and the heritage of Kochi. We show you Kerala's icons — and the hidden gems only locals know. We help discover the true spirit of *God's Own Country*

- Rich culture and history and religion diversity
- Birthplace of Ayurveda and natural treatments
- Lush forests, wildlife, backwaters and priscie beaches
- Luxury wellness resorts and eco-retreats

MUST DO

Iconic *Kettuvallams* were originally rice barges that transported paddy and spices through the backwaters. Built for long journeys, they served as floating homes for the crew. With the arrival of road transport, these boats were transformed into luxurious houseboats, offering a unique journey through Kerala's tranquil backwaters, rural life, and rich cultural heritage
